

FRANK IMPROVING AFTER OPERATION

Stitches Are Removed and Wound Cleaned of Poison.

JUGULAR VEIN NOT CUT

Green Willing to Tell Story of Cutting to Governor—Had Threatened Life of Prison Doctor.

Milledgeville, July 20.—Leo M. Frank late this afternoon informed the attending physicians that he felt "much better" following the removal earlier in the day of three stitches in his throat, and the establishment of a free drainage from the wound. An official statement signed by Drs. Compton, Hall and Rosenberg declared the patient's condition favorable.

Frank has been removed to a private room and is much more comfortable. The physicians today, after their examination of the prisoner, stated that William Harris' knife had severed the external jugular and venous communications, both large and important blood vessels. The internal jugular escaped. The carotid artery was left exposed but uninjured.

Green, Frank's assailant, Tuesday afternoon volunteered the remark that he would be willing to tell his story to Gov. Harris. The only other man to whom he would talk, he said, is his former employer, Mr. Hardaway, of Columbus, although he added:

"Warden Smith is my friend and I might make a statement to him, but if I should do so, it would be when I get good and ready."

Rabbi Visits Frank.

Mr. H. J. Rosenberg, of Atlanta, returned to Milledgeville this morning and advised with the physicians caring for Frank. He said that he was not called, but came only because he had been Frank's family physician and Mrs. Frank had asked him to come and act in an advisory capacity in the case.

Rabbi David Marx and H. A. Alexander, attorney for Frank in his final battles in the courts, arrived here this morning. Rabbi Marx said he came to comfort Mrs. Frank, who has been under a terrible mental and physical strain since the attack on her husband.

Mr. Alexander also called to see Mrs. Frank at the residence of Supt. Smith, of the prison farm.

Cut 'on Own Hook.'

L. E. Rainey, of the State prison Commission, talked to Green, but the prisoner assumed a defiant attitude. Mr. Rainey asked him what his object was in attacking Frank. Green replied that he thought it was his duty to kill Frank.

"Had you any help, or had any one told you that you should kill Frank?" Mr. Rainey asked.

Green smiled and replied:

"No, it was my duty, and I did it on my own hook."

It developed today that Green, a few days before his attack on Frank, had threatened to kill Dr. Compton, the prison physician. Dr. Compton, during an epidemic, ordered that all convicts should be vaccinated. Green objected strenuously to this, and it was necessary to hold him while the physician gave him an injection of serum.

Green afterwards said that he was "tired" of Dr. Compton if it took him years to do it.

As the result of the attack on Frank, seven prisoners, including farm hands, were transferred to the State prison, likely will be transferred as soon as practicable to the various chain gangs throughout the State.

Green Not Crazy.

State Prison Commissioner Rainey, after his talk with Frank's assailant, expressed the opinion that Green was not crazy. Mr. Rainey said:

"Green is not crazy; he is merely a sullen man. He is an assured man that Frank would not recover."

Atlanta, Ga., July 20.—Gov. Harris announced here tonight that he would accompany Mrs. Frank to Milledgeville Saturday to investigate the attack on Leo Frank.

"It will be a complete investigation of affairs at the State farm," said the governor. "I want to know how one prisoner was able to make an attack upon another."

BOURDEAU FUNERAL TODAY.

Prominent Adventists Will Take Part in the Services.

Funeral services for Prof. A. J. S. Bourdeau, Seventh Day Adventist writer and teacher, who was killed in Takoma Park, Md., Monday by a bolt of lightning, will be held this afternoon at 2 o'clock in the Adventist church, Takoma Park. Participating in the services will be the members of the international conference of the church; Elder A. G. Daniels, world president of the church; H. L. Evans, president of the North American division; W. T. Knox, S. S. Longacre and G. B. Thompson. Prof. Clemens Hamer, of Washington Missionary College, will be in charge of the music.

Burial will be in Rock Creek Cemetery. Employees in the Adventist buildings in Takoma Park will be dismissed at noon today for the services.

Funeral services for Edwin Andrews, the five-year-old boy who was killed by a stolen bolt, will be held this morning at 10 o'clock at the home, 15 Village avenue, Takoma Park, Md. Elder G. B. Thompson, of the general conference of the church, is to officiate. Burial will be in Rock Creek Cemetery.

The Real Suffrage Thought of Women

Motherhood is the thought uppermost in woman's mind. And with it, of course, comes the question of comfort, of helpful aids and influences.

Among the best of these is a well known external remedy, "Mother's Friend." It is gently applied to the surface muscles. These are lubricated, toned, made pliable so they stretch as nature requires without the strain and pain on cords and ligaments.

This influence extends through the myriad of nerves to deeper surfaces, the internal organs. And thus a period of repose must reflect itself not only in the mind of the mother, but upon the body to come.

Young mothers who have used "Mother's Friend" have written to say how rejoiced they were at the absence of morning sickness, extreme nervousness, and other distresses of which they had heard and feared. Get a bottle of "Mother's Friend" at any drug store. Simply apply it over the stomach muscles and rest assured of perfect safety and comfort day and night. Write to Bradfield Regulator, 408 Lamar Bldg., Atlanta, Ga., for full handsome and instructive book.

'BOOST CAPITAL' NOW THE SLOGAN

Retail Merchants' Body Provides for Individual Memberships.

MINIMUM DUES ARE \$5

Automobile Trade-booming Trip Into Virginia and Maryland to Be Made in September.

"Boost for Washington, Summer and Winter," was the slogan at last night's meeting of the Retail Merchants' Association at the Raleigh Hotel, and in order to give everybody in Washington an opportunity to participate in the forward movement the association's by-laws were amended to provide for individual memberships at \$5 or more a year.

Firm memberships in the association, entitling the holder to the full service benefits of the organization, will be the same as in the past, from \$20 to \$100 a year, according to the size of the business. Individual members at \$5 will be identified with such unit of activity as they shall elect, according to the needs of their business or their ambitions for Washington.

A Washington boosters' section of the Retail Merchants' Association hereafter will play an important part in the activities of the organization. Announcement was made that four individual trade bodies will amalgamate with the Retail Merchants' Association.

Trade-booming Trip.

September 13 and 14 were dates decided on for the merchants' automobile trade-booming trip into Virginia and Maryland. President R. P. Andrews, chairman of the boosters' committee, announced that reservations should be made at once, and that positions in line and other accommodations will be arranged for in the order of receipt.

Fake auction houses came in for a great deal of condemnation. Secretary Charles J. Columbus was directed to transmit a letter to Corporation Counsel Conrad H. Sims, expressing the appreciation of the merchants for the great help his office is giving in the preparation of a bill to be presented at the next session of Congress covering the fake auction evil.

The Association also unanimously adopted a motion for the appointment of a committee of five to assist the corporation counsel in the promotion of the legislation before Congress. The committee consists of M. P. Rosenberg, general counsel, chairman; E. C. Graham, Isaacs Gns. S. W. Straus and George W. Spier.

Announcement was made of the death of John Hansen. He was an active worker in the organization. The association voted that a floral tribute be sent to the residence of the deceased and directed the appointment of a committee to prepare resolutions and to represent the association at the funeral this afternoon at 2 o'clock. President Andrews named M. A. Leese, chairman; Washington Topham, George W. Spier, Richard L. Lamb and Max Rich.

A resolution was adopted directing the secretary to officially advise Public Printer Cornelius Ford of the merchants' appreciation of the efficiency of the accounting department of his bureau.

Plans for Lecture.

Secretary Columbus was directed to arrange with Gilbert McCune, of Denver, Col., for an illustrated lecture on "Panama Colorado," at the Burton & Son was elected to membership.

Following the meeting refreshments were served.

Many of the merchants present at last night's meeting called attention to the fact that their business is showing a healthy increase.

Russians Destroy 59 Turk Ships.

London, July 20.—A Reuters dispatch from Petrograd reports that Russian torpedo boats attacked and destroyed fifty-nine sailing ships bound to Trebizond with war materials for the Ottoman Caucasus army. The crews of the vessels were made prisoners.

Rev. Dr. Van Schaick Is Back from the War Zone

REV. DR. JOHN VAN SCHAICK, JR.

Rev. Dr. John Van Schaick, Jr., pastor of the Church of Our Father, has returned to Washington from Europe, where he went to aid in the work of the Rockefeller foundation war relief commission. He will leave today for New York City to join Mrs. Van Schaick and spend a brief vacation before returning to his pastoral work here.

Dr. Van Schaick visited Commissioner Newman at the District Building to talk over municipal affairs which have transpired since the pastor's departure for the war zone.

MINES LAID NEAR LOVE POINT.

Not in Fear of Enemy's Approach, but to Give Marines Practice.

Submarine mines are being laid in the waters near Love Point, Md. But not because the United States fears a European power is preparing to steam its ships up the Potomac. Company 2, First Regiment, Marine Corps, is stationed there for practice in the laying of mines. The company is in command of Capt. Logan Feland, Marine Corps, with First Lieut. Julian C. Smith second in charge.

In the daily practice of the company Capt. Feland marks on a chart of the river the spots where the mines are laid. The mines are divided into sections, each having a special duty to perform. The company expects to spend about three months practicing in that neighborhood.

MATTHEWS' SENTENCE CUT.

President Acts in Case of Negro Convicted of Manslaughter.

President Wilson yesterday remitted the \$25 fine imposed March 27, 1915, on O. R. Turnbaugh, of Los Angeles, Cal., convicted of embezzling \$25 in postal funds. Turnbaugh has served out a four months' sentence, and because of the illness of his wife the President remitted his fine.

President Wilson also commuted to one year and a day the fifteen months' sentence imposed October 30, 1914, on Jonas Bickman, of New York, convicted of perjury in testifying in a bankruptcy case. Turnbaugh was told Bickman was intentionally perjured himself.

The President commuted to six years the ten-year sentence imposed on Samuel Matthews, colored, of Washington, D. C., for manslaughter.

PLANS NEAR-BEER LEGAL TEST.

Anti-Saloon League Wants Case Taken to Court.

Believing the Jones-Works excise law prohibits the sale of near-beer in the District, the Anti-Saloon League will endeavor to have the office of the Corporation Counsel bring a test case in the Police Court. It was announced yesterday by Albert E. Shoemaker, attorney for the league. The matter was recently brought to the league's attention by the Central Labor Union, which protested against the danger to which the youth of the city are being exposed by the unrestricted sale of this product.

Mr. Shoemaker points out that section 9 of paragraph 1 in the excise law states that wherever the words "Intoxicating Liquors" shall be used in the law it shall mean any beverage that contains 2 per cent of alcohol or any beverage that contains less than that amount if it is intoxicating.

STUNNED BY LIGHTNING.

Workman in Machine Shop Is Knocked Unconscious.

Thomas Gillon, 45, living in Congress Heights, D. C., was another victim of Monday's rain and electric storm, according to reports made to the police yesterday.

Gillon was working in the machine shop of the Washington Steel and Ordnance Company's plant at Glebeboro Point when a vivid bolt of lightning charged the air of the shop. Gillon was standing near a machine and was knocked unconscious. He was revived and taken to Providence Hospital, where he was treated and discharged.

Silverfish, unlike goldfish, are not fish at all, but insects that owe their name to their peculiar form and scaly body. They are sometimes called silver lice, silver witch, sugarfish, and similar names. The Department of Agriculture states in a recent bulletin.

Joy Riding Must Be Stopped, Pullman Tells Police Force

Bluecoats Given Stern Lecture on Vigilance, Following Discovery that Number of Stolen Cars Has Increased 50 Per Cent in a Year.

Plans to prevent the theft of automobiles from public parking spaces were formulated yesterday by police officials at a conference in the office of Maj. Raymond W. Pullman. The number of such thefts increased fifty per cent during the year June 1, 1914, to June 1, last, about 100 automobiles having been stolen in that period. In the preceding year, 1914, had been taken from a patrolman's car.

The men of the police force, following the conference yesterday, were ordered to exert greater vigilance for recovery of automobiles reported stolen. When theft of an automobile is reported at police headquarters, each policeman on duty, when making his hourly telephone report, is commanded to look out for the missing automobile.

That many patrolmen had been remiss in following such orders was admitted yesterday by an official of the department. Maj. Pullman declared the men were to be held to a rigid accountability for the recovery of machines within the District, meaning that if a stolen automobile were abandoned on a patrolman's round and not reported as being there after a reasonable passage of time, a demerit mark might be jotted down against the man. Superior officers also will be held liable for the recovery of missing machines.

With the order demanding renewed vigilance, policemen on duty will be tested through the employ of decoy automobiles, to be reported as missing and later left within the District. If such machines are passed by and the number not communicated to headquarters, the unfortunate patrolman will be asked for an explanation.

The majority of missing automobiles are stolen by men and boys seeking joy rides. Police say. Special efforts at prosecution will be asked of the district attorney's office, that persons contemplating taking such joy rides will be made to realize the seriousness of the crime.

In the past three years only one machine has not been recovered. Many machines within that time, however, have been totally and partially destroyed by the careless driving of the unlawful riders. The majority of the stolen automobiles are taken during a night, and it often happens they are abandoned after removable tools and tires have been taken away.

ALLIED AIRMEN HURL BOMBS ON RAILROADS

French Air Squadron of Six Planes Attacks Colmar Station—Four Aeroplanes in Challenger Raid.

Paris, July 20.—Two more successful air raids have been carried out by allied aviators, the French war office announced today. At Colmar the railway line in Alsace and the railway junction at Châtenay in Eastern France were attacked.

Six French aeroplanes took part in the raid on Colmar, which occurred early today. Four machines were in the squadron that raided Châtenay on Monday. At Colmar the railway line was damaged as well as the station and a train. All the aeroplanes returned to their base undamaged. Forty-eight bombs were dropped at Châtenay.

The text of the communiqué relating to the air raids follows:

"A French squadron of six aeroplanes bombed the railway station at Colmar this morning. Eight shells of 150 kilograms and three of 50 kilograms were dropped upon the station buildings, damaging the rails and trains in the main station. The freight station was the most damaged. No shell was dropped upon the town. The French machines returned undamaged."

"Four aeroplanes on July 19 dropped forty-eight shells on the railway junction at Châtenay, south of Voulziers."

BATTLE 8,000 FEET IN AIR

Russian Aeroplanes Forced to Descend After Meeting Germans.

Petrograd, July 20.—Three German military aeroplanes, sweeping through the sky like birds of prey, bore down upon a giant Russian aeroplane near Chelm and the aerial fight which followed presented one of the most spectacular air combats yet seen in the eastern theater of war.

News of the air duel, which took place 8,000 feet above the ground, was received today from Warsaw. The German machines were attached to the air service of Gen. von Mackensen's army, which is trying to drive northward against Warsaw. One of the Russian aviators was injured and sixteen shells pierced the fuel tank, making it necessary for the aeroplane to descend, which it did within the Russian lines. One of the German machines was badly damaged.

WILL PAY FOR ACCIDENTS.

Alaskan Railway Workers Will Get Doctors' Attendance Free.

President Wilson approved yesterday an order, prepared by Secretary Lane of the Department of Interior, putting into effect "a system of responsibility for accidents which may occur on the track of constructing railways in Alaska."

Secretary Lane also directs that the Alaska Engineering Commission shall make no charge for the service of its medical or surgical officers rendered to men employed thus injured in Alaska or to any persons, while under contract with the commission, who are injured in the course of the Government's railway by construction. This provision covers possible injuries to "station men" who perform work for the Federal Railroad Commission.

The order further provides that "in case such injury of such person not an employee be such that the chairman of the commission shall deem it beneficial that he shall be conveyed to any other point in Alaska or to the city of Seattle for medical or surgical treatment not available at the place where such injury occurs," the commission shall pay the patient's transportation.

MARRIAGE LICENSES.

James W. Marston, 21, and Annie L. Adams, 21, both of Richmond, Va. Rev. L. Morgan Chambers, 21, of this city. Rev. John H. Tipton, 21, of this city. Rev. John H. O'Leary, 21, of this city.
